SUMMARY

Senior Software Engineer with 6+ years and Platform Engineer with 2+ years professional experience in Japan.

Engaged in the developments for enterprise SaaS and the operation of cloud infrastructures with high-security requirements.

SKILLS

SRE

- SLI/SLO
- Datadog
- Capacity Planning
- Incident Management
- Security

Platform Engineer

- GCP
- Kubernetes
- Terraform
- Architectural Design
- Developer Experience

Backend

- Go
- gRPC
- PostgreSQL
- Microservice

LANGUAGES

- Japanese(Native)
- English(Professional working)

WORK EXPERIENCE

2024-04 -
Present

Freelance, Embedded SRE in AI/LLM Division

LayerX Inc.

- Built and operated the enterprise SaaS infrastructure.
- Implemented capacity planning.
- Built the client's infrastructure and deployed the application.

2023-11 -
Present

Freelance, Enabling SRE/Platform Engineer

enechain Corporation

- Led the creation of manifest and terraform generator tools for developers that accelerate microservice development.
- Operated infrastructure centered on GKE.
- Led rebuilding the Terraform infrastructures to improve execution speed and cost efficiency.
- Led unifying technology stack and standardizing microservices architecture.
- Led standardizing repository structure and branch strategy.
- Led standardizing how to use Datadog APM and service map.
- Led redesigning the access control policies with high governance and security standards.

2019-04 -
Present

CTO/Enabling SRE

Industry Technology Inc.

- Led the backend development of the enterprise SaaS consisting of over 60 services.
- Led the creation of application infrastructure that ensured enterprise security and governance standards with Terraform.
- Led migrating legacy Aurora Serverless v1 (MySQL 5.7) to Aurora Serverless v2 (MySQL v8.0) without downtime.
- Led designing SLI/SLO and creating dashboards and monitors on Datadog.

2023-08 -
2024-04

Freelance, Infra Engineer in LLM STUDIO Division

Algomatic Inc.

- Led the creation of learning infrastructure for LLM.
- Led the creation of an inference server using LLM of billions of parameters.
- Led the creation of infrastructures for LLM applications.

2018-04 -
2019-06

Data Analyst/Digital Marketer

Gunosy Inc.

- Led planning and applying A/B tests once a week.
- Analyzed user data and examined trends using tables with millions of records.

2018-01 -
2018-03

Intern, Backend Engineer

ZUU Co.,Ltd.

- Developed the internal system used by 100 members.

EDUCATION

2014 - 2018

Bachelor of Engineering

The University of Tokyo

- Designed the preoperative evaluation system for elderly patients using a generalized linear model
